

• HYPERLOCAL SERVICES & D2C COMMERCE

Smart Home Services & Appliance Marketplace

Connecting 500M+ Indians with certified on-demand technicians and direct-to-consumer home appliances with bundled doorstep delivery, installation, and live demo.

ON-DEMAND REPAIRS

10+ categories with rate cards & OTP

BHARATHFIX MARKET

Direct sale of purifiers, CCTV & inverters

UNIFIED FLEET

Deliver, install & demo in single visit

The Dual-Engine Business Model

Transforming seasonal repairs into a high-frequency, high-value commerce ecosystem.

ENGINE 01

On-Demand Services

Appliance Repairs: Washing machines, fridges, ACs, geysers, microwaves.

Essential Utilities: Certified plumbing & electrical diagnostics.

High Frequency: Year-round recurring household visits.

Transparent Pricing: ₹19 visiting fee with approved rate cards.

Trust Mechanism: Start & Completion OTP verification

ENGINE 02

BharathFix Market

Curated Appliances: RO water purifiers, CCTV systems, inverters.

Bundled Install: Free same-day delivery, mounting, and demo.

High Basket Value: ₹3,500 – ₹18,000 average order size.

Upsell Synergies: Recommends new unit when repair costs peak.

Stock Assurance: Centralized live inventory control

Customer Onboarding & Address Flow

Eliminating friction and drop-offs while guaranteeing pinpoint geo-tagged delivery addresses.

01

Mobile OTP Login

User inputs 10-digit number. Instant Firebase SMS code. Zero passwords required.

02

Firebase UID Identity

Secure UID generated. Encrypted session token preserved on local device storage.

03

Mandatory Profile

Collects user full name, email for GST tax invoices, and verified WhatsApp number.

04

Geo-Address Capture

Auto-detects GPS pin + flat/house number, local landmark, and sub-district taluk.

Operational Rule: Strict Delivery Address Enforcement

Customers cannot checkout an appliance or book a repair visit without a confirmed delivery address and landmark. This eliminates failed technician dispatches and delivery cancellations completely.

Customer App: "BharathFix Market" Tab

A dedicated storefront for certified home appliances with bundled same-day installation.

FLAGSHIP PRODUCT

Water Purifiers (RO + UV + Alkaline)

Domestic 10L–15L purifiers bundled with wall mounting kit & plumbing setup.

CCTV Security

Wi-Fi & wired 4K outdoor systems.

Inverters & UPS

Heavy-duty home voltage protectors.

Kitchen Chimneys

Auto-clean hoods with ducting setup.

Air Coolers

Desert & personal cooling units.

Why Buy on BharathFix vs. General E-Commerce?

- ✓ **Zero Waiting for Installation**
Traditional e-com installs on Day 4. BharathFix delivers & installs on the same visit.
- ✓ **Live Technician Hands-On Demo**
Technician unboxes, mounts, tests, and trains the customer prior to completion OTP.
- ✓ **Local Neighborhood Warranty**
Warranty repairs serviced directly by the trusted BharathFix district technician pool.
- ✓ **Live Real-Time Stock Visibility**
Dynamic inventory badges ("In Stock", "Only 2 Left") backed by local hub stores.

 **High-Conversion Advantage:** Instant gratification with zero friction.

App UX: "Bookings" vs. "Orders" Tab Split

Clean visual separation of service visits and physical merchandise to prevent user confusion.

Feature Dimension	 Bookings Tab (Repairs)	 Orders Tab (Market)
Primary Purpose	On-demand repair & diagnostic visits	Physical appliance purchase & delivery
Scheduling Type	Exact customer time slot (e.g., 11:00 AM)	Delivery slot (Same-Day or Next-Day window)
Payment Flow	₹19 visit fee upfront + quote upon inspection	Full appliance price via UPI / Razorpay / COD
Tracking Lifecycle	Booked → Tech Assigned → In-Progress → Done	Placed → Hub Pickup → Out for Install → Closed
Security Verification	Start OTP + Repair Completion OTP	Delivery & Live Demonstration OTP
Invoice Document	Service & Labor Tax Invoice	Appliance Retail GST Invoice with Serial No.

Technician App: Dual-Role Execution Engine

Empowering local service professionals into certified delivery, mounting, and installation entrepreneurs.

WORKFLOW A

Service & Repair Technician

- 1 Receive skill-matched job alert via instant push.
- 2 Review customer address & open Maps routing.
- 3 Arrive at customer home & verify 4-digit Start OTP.
- 4 Inspect machine & generate digital quote on app.
- 5 Customer approves quote on customer handset.
- 6 Complete repair, verify Completion OTP, collect fee.

 **Earning: Inspection share + 80% labor fee**

WORKFLOW B

Delivery & Installation Executive

- 1 Receive new appliance delivery & install order.
- 2 Navigate to BharathFix hub to collect boxed SKU.
- 3 Mark "Picked Up" & transit to delivery coordinates.
- 4 Unpack, drill/mount, and perform electrical plumb.
- 5 Power on, run diagnostic, and demo to family.
- 6 Customer inputs Delivery & Demo OTP to close.

 **Earning: Guaranteed delivery + installation fee payout**

Admin Console: Orders, Bookings & Stock Control

Single unified control plane for tracking dispatches, live inventory counts, and technician settlements.

Orders & Dispatch

Dedicated Sales Tab: Live product order funnel.

Intelligent Routing: Assigns nearest certified tech.

Status Pipeline: Hub → Transit → Installed.

Automated Invoicing: Instant GST invoice emission.

Bookings Dispatch

Repairs Queue: Real-time booking requests.

Skill Matching: Auto-routes by technician specialty.

Manual Override: Admin re-assignment in 1 click.

Quote Audit: Real-time review of spare part fees.

Inventory & Stock Hub

SKU Management: Add/edit specs & product photos.

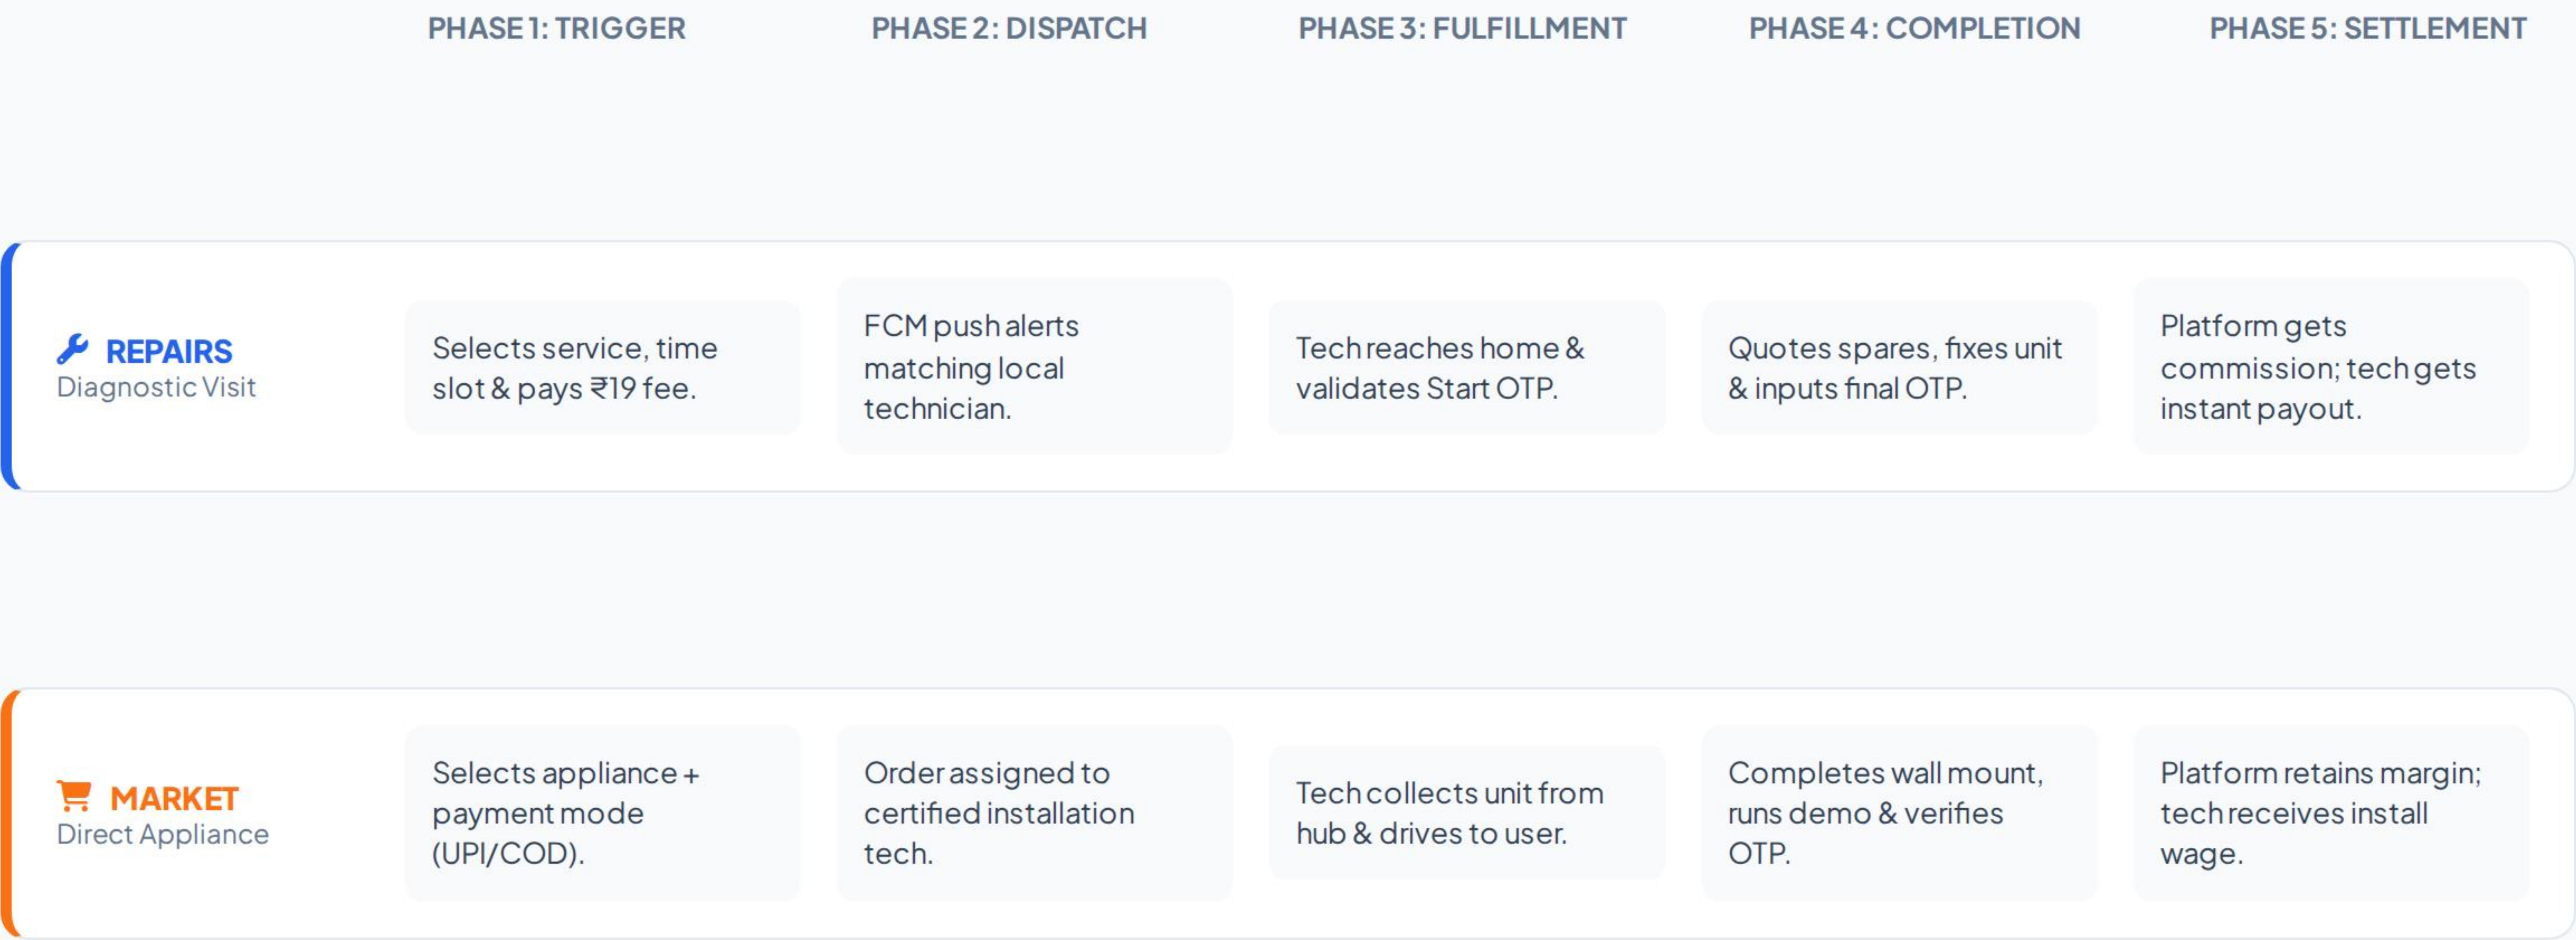

Live Buffer Alert: Low stock triggers warnings.

Margin Tracker: Supplier cost vs. Selling price.

Hub Distribution: Stock allocated across district pods.

Synchronized Operational Lifecycles

Comparison of service diagnostic calls versus physical appliance order delivery.

Production Readiness & Technical Safeguards

Audited technical architecture improvements ensuring high availability and zero financial leaks.

Server-Side Razorpay Order Creation

Vulnerability: Client-side mock IDs reject live payments.

Production Fix: Node.js backend initializes genuine order tokens with live currency & encrypted secret keys.

HMAC-SHA256 Webhook Verification

Vulnerability: Unauthenticated webhooks allow spoofed payments.

Production Fix: Cryptographic signature validation guarantees only verified gateway callbacks update order state.

Localized Firestore Query Scoping

Vulnerability: Unbounded global reads fetched the full database.

Production Fix: Partitioned queries scoped by taluk & service code, slashing Firestore read volume by 99%.

24/7 Always-On FCM Push Daemon

Vulnerability: Sleeping free instances missed critical technician alerts.

Production Fix: High-availability dedicated node host with persistent socket loop guarantees instant job dispatch.

REGIONAL ADOPTION

Customer Trust & Tier-2/3 India Localization

Designing specifically for high-velocity regional penetration across Hassan and Karnataka.

₹19 Fee Transparency

Dispels assumption that ₹19 covers total overhaul. App clearly clarifies: **"₹19 covers doorstep diagnosis; spares & labor strictly per rate-card."**

✓ Quote pre-approved before tool unlock

Native Kannada UI

Prompt English vs. ಕನ್ನಡ on first download. In Hassan, 60%+ users convert faster in regional vernacular with simple iconography.

📈 +40% conversion in semi-urban cohorts

Safety & Verification

Technician profiles feature photo badges, government ID status, and customer ratings. Dual OTP safeguards home entry and work sign-off.

📞 One-tap SOS & WhatsApp escalation

FINANCIAL MODEL

Monetization Architecture & Unit Economics

Diversified income streams generating compounding customer lifetime value (LTV).

Revenue Stream	Avg. Transaction (AOV)	BharathFix Margin	Platform Take / Order
Service Visiting Fee	₹19 – ₹49	20% Platform Fee	₹4 – ₹10
Appliance Spares & Labor	₹850	20% Commission	₹170
Water Purifier Direct Sale	₹8,999	25% Product Margin	₹2,250
CCTV 4–Cam Security Kit	₹12,499	28% Product Margin	₹3,500
Annual Filter AMC Contract	₹2,499 /year	35% Recurring Margin	₹875 /year

RECURRING ENGINE

High-frequency ₹19 visits generate leads for ₹8.9k+ appliance purchases.

RECURRING AMC MOAT

35% margins on filter maintenance contracts create compounding LTV.

Go-To-Market Roadmap & Next Milestones

WEEKS 1 – 2

Phase 1: Core Hardening

- Razorpay backend order APIs & keys
- Deploy dedicated Market & Orders tabs
- Admin inventory catalog & stock control
- Enable native Kannada localization

WEEKS 3 – 4

Phase 2: Hub & Technicians

- Establish Hassan stock hub (Purifiers & CCTV)
- Onboard cohort of 25 certified technicians
- Execute 50 simulated deliveries & drills
- Release Google Play production builds

WEEKS 5 – 6

Phase 3: Scale & Marketing

- Launch ₹19 visiting fee district campaign
- WhatsApp direct order concierge launch
- Local dealer partnerships & referrals
- Target: 500 bookings & 50 appliance sales

Month 1 Target Milestone: 500 Confirmed Service Bookings & 50 Direct Appliance Deliveries

Ready for Commercial Deployment
